

# VMB-O Flowable Organic

for Vine Mealybug (*Planococcus ficus*)

Wine grapes, table grapes, and raisin grapes where VMB is present

## CheckMate® VMB-O Flowable Organic

CheckMate® VMB-O provides organic, pheromone-based control of vine mealybug, delivering up to 30 days of protection per application. Designed for organic vineyards, this solution integrates seamlessly into IPM programs and is safe for beneficial and non-target species.

CheckMate® VMB-O gives growers the flexibility to spray once or multiple times each season, depending on vine mealybug pressure and timing in their vineyards.

## Why Growers Choose CheckMate® VMB-O Flowable Organic

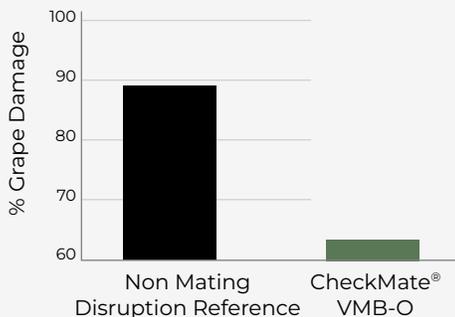

- Flexible way to reduce VMB damage
- Approved for organic production
- Fights development of insecticide resistance
- Prevent virus spread
- Tank-mixable with common agrochemicals
- Does not harm beneficial insects
- Zero pre-harvest interval and MRL exempt

FOR ORGANIC PRODUCTION

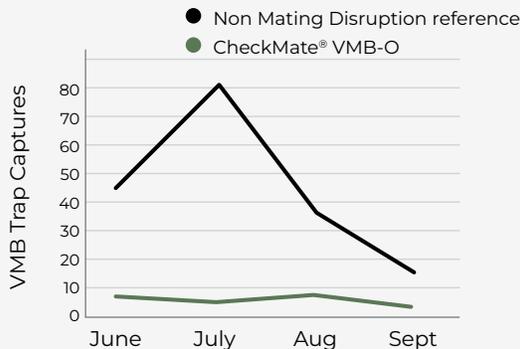

## Damage Reduction

CheckMate® VMB-O Flowable used as the foundation of a comprehensive IPM program cuts vine mealybug damage by up to 90%.

## Trap Inhibition

CheckMate® VMB-O Flowable hinders the ability of males to find pheromone traps as compared to areas treated with grower standard practices.

Item #  
**18710**

EPA #  
**56336-89**

Suggested Rate  
**0.9 fl. oz  
per acre**

Available In  
**CA**

## Monitoring Guide

VMB are efficient vectors of grapevine leafroll associated viruses (GLRaVs).
